Introduction

This report analyzes classroom and lab utilization for the fall 2001 semester. "Utilization" refers to the number of instructional hours scheduled per week in designated classrooms (room type 110 in the SWT Rooms Inventory) or class labs (room type 210). The total instructional hours for each classroom or lab are compared with the "utilization standard," as defined by the Texas Higher Education Coordinating Board (CB).

In 1997, the CB began calculating classroom and lab utilization using 50-minute hours, therefore 50-minute hours are used in this report. Currently, the CB utilization standard for classrooms is 38 hours per week. The lab utilization standard is 25 hours per week.

This report focuses on **room type only**. No distinction is made between lecture or lab sections. This means that the 139 lab sections (405 hours) taught in designated classrooms apply only to the classroom totals. The 216 class sections (946.4 hours) taught in designated class labs apply only to the lab totals.

During the Fall 2001 semester, 10,309 instructional hours were scheduled at SWT (main campus). For this report 342 course sections (1152.7 hours) that were taught in rooms not designated as classrooms or class labs have been removed. See the following table for details.

Room Type	50 Minute Hours
Lab Service	7.2
Special Class Lab	546.8
Special Lab Service	3.3
Individual Study Lab	69.6
Research Lab	3
Research Lab Service	2.4
Office	46.8
Conference room	105.5
Reading Study Room	3.6
PE Facility	136.8

Room Type	50 Minute Hours
Media Production	16.2
Media Production Service	7.2
Clinic (non-HP)	10.8
Greenhouse	2.4
Assembly	50.7
Assembly Service	19.8
Meeting Room	67.8
Treatment/Exam Room	52.8
Total	1152.7

In addition, all but one course section that was scheduled in a "stacked" room have been removed from the totals. In a stacked room 2 or more courses are taught at the same time. The total deduction for stacked rooms is 891.5 instructional hours. See deduction summary below.

Total Instructional Hours (based on CBM005 Report)	10,309
Deduction for hours not taught in designated Classrooms or Class Labs	1152.7
Deduction for Stacked Hours	891.5
Total Instructional Hours used in this report	8264.8
Source: Fall 2001 CBM005	

With the above-mentioned deductions, the 10,309 total instructional hours was reduced to 8264.8 hours. More specifically, the tables are based on 6542.3 scheduled instructional hours in 164 designated classrooms and 1722.5 instructional hours scheduled in 63 designated class labs.

Section 2: Classroom and Lab Usage, Fall 2001 by Coordinating Board Percentage.

Table 2.1: *Classroom Utilization Ranked by Percentage of CB Utilization Standard* - Each of the 168 classrooms is ranked by percentage of the CB utilization standard in descending order. The CB sets the utilization standard for classrooms at 38 (50 minute) hours per week.

Table 2.2: *Lab Utilization Ranked by Percentage of CB Utilization Standard* - Each of the 63 labs is ranked by percentage of the CB utilization standard in descending order. The CB sets the utilization standard for labs at 25 (50 minute) hours per week.
